

### **Vision Statement and Values:**

The Ramarama School Values Logo is central to everything we do at Ramarama School. This logo is a visual cue and reminds us all of our three central values: **Treasure** (Tiaki Taonga), **Explore** (Whakatuhura) and **Challenge** (Whakawero). Within each of these values we extend this further to include 9 School Capabilities or behaviour traits we value at our school.

We use these Capabilities as a framework to unpack the types of learning behaviours and attitudes that we promote here at Ramarama School in a variety of ways.

This logo is the framework for our school rules and behaviour management plan, our learning, our staff charter, our learning space treaties and so much more!

Central to this Values Logo is our school logo and motto: “Growing Successful Futures, Together.” We believe that the success of our school is largely built on the amazing Ramarama School Community- that includes, staff, students, parents, caregivers and our wider school whanau. By working collaboratively we can ensure success for all and enjoy learning alongside one another..
